ARCA

Orlandini Design

Arca rappresenta una declinazione completa del concetto di poltrona per spazi attesa, meeting e lounge, proponendosi in 2 dimensioni di seduta e 3 differenti altezze di schienale abbinabili a numerose tipologie di basamenti. La versione "lounge" con schienale basso è ideale per ambienti attesa veloci, o per grandi meeting rooms, mentre la variante con schienalino aggiunto dona maggiore importanza e comfort alla seduta. La sua declinazione più caratterizzante è con lo schienale alto, avvolgente, ma non invadente, per una pausa in completo relax, anche nella particolare configurazione con base a dondolo. Arca "small" ripropone le forme della versione "lounge" ridimensionate per zone riunione. Arca ricalca alla perfezione l'attuale concetto di "Smart Lounge", in cui l'attesa diventa un momento di riflessione, lavoro o semplice relax sul web; tutte le versioni di Arca sono pertanto accessoriabili con una tavoletta di appoggio, dalle dimensioni generose, installata su un meccanismo di rotazione.

Arca defines a new concept of armchair for lounges and waiting areas, available in 3 backrest heights, which can be combined to many base typologies. The Lounge version, with low backrest, is ideal for quick waiting areas, large meeting rooms, while the medium back option, with backrest cushion, gives more prestige and comfort to the armchair. The High version gives the unique touch of design to this collection, with its embracing backrest for a break of full relax, especially with its rocking base. Arca "small" keeps the same design of the "lounge" version, resized for meeting environments.

Arca perfectly traces the new concept of "Smart Lounge", where waiting moments become great occasions for reflection, working or relaxing on the web; all versions of Arca can indeed be equipped with a large writing tablet, swivel around the arm.
