BE

collection

design by *DANIELE CANUTI*

IT

Il mondo office sta vivendo una vera e propria rivoluzione: un nuovo modo di lavorare che passa da una dimensione individuale ad una più corale, nella quale il valore si sposta dal singolo al team. Di conseguenza anche gli spazi di lavoro devono mutare, riconfigurandosi per soddisfare le esigenze di questo nuovo modo di fare. È proprio pensando a questa evoluzione che nasce la collezione BE, disegnata da Daniele Canuti: una famiglia di arredi versatili e facilmente ricollocabili, progettati per adattarsi con facilità ai contesti lavorativi e contract più fluidi, e alle mutevoli necessità operative: lavorare, concentrarsi, condividere, comunicare o concedersi una pausa. La cifra stilistica della BE è la linea curva, come conseguenza dell'eliminazione dell'angolo a 90 gradi sui piani. Cosicché tutte le persone che vi stanno intorno possano guardarsi negli occhi e condividere piacevolmente progetti ed idee. Questa linea si ritrova anche nelle strutture tubolari metalliche, che sorreggono i piani - di lavoro nel caso di tavoli e scrivanie, o di contenimento per le librerie - e gli iconici roof, disponibili sia in versione fonoassorbente che dotati di una vasca per piante.

EN

The office world is experiencing a real revolution: a new way of working that from an individual dimension become a whole, where the importance moves from the individual person to the team. Consequently, the work spaces must also change to meet the needs of this new way of living and working. It is precisely with this evolution that the BE collection, designed by Daniele Canuti, was born: a group of versatile and easily relocatable furnishings, designed to adapt to the most fluid work and contract contexts, and to changing operative needs: work, focus, share, communicate or simply take a break.

The stylistic code of the BE is the curved line, as a consequence of the 90-degree angle top removal. All the people can look into each other's eyes and pleasantly share projects and ideas. This line continues with the tubular metal structures, which support the tops - worktops for desks and tables, or the storage units for bookcases - and the iconic roof, available both in sound-absorbing versions and equipped with a plant box.

workstation

Cassetto singolo ■ Single drawer

IT Le workstation della linea BE sono composte da sistemi a doppia postazione frontale da due a infinite postazioni lavorative con la possibilità di poter scegliere fra tre differenti lunghezze per piani di lavoro. La struttura metallica poggia su supporti fissi e piedini di regolazione. Possono essere integrati con accessori come pannelli schermo, cassetti sottopiano, appendiabiti, top access o fori passacavi. Inoltre è possibile aggiungere tramite innesto anche un "tetto" fonoassorbente o con vasca portapiante. Completano la collezione dei mobiletti laterali, con o senza porta CPU ed un mobile da posizionare in testa alle composizioni, con struttura porta piante o senza.

EN BE workstations can be combined of benches from two to an infinite number of work posts with the possibility to choose three different lengths for the worktops. The metal structure rests on fixed supports with adjustable feet. The benches can be completed with different accessories: screen panels, drawers under the top, hangers, top access or cable plugs. It is also possible to add a sound-absorbing or a plant-holder "roof". The collection is completed with side cabinets with or without CPU holder and a cabinet to be placed at the beginning of the compositions, it can be with or without plant holder.

FR Les workstation de la ligne BE sont composés de bench de deux postes de travail à l'infini avec la possibilité de pouvoir choisir trois longueurs différentes pour les plans de travail. La structure métallique s'appuie sur des supports fixes et des pieds réglables. Les benches peuvent être accessorisées avec des panneaux écrans, des tiroirs sous le plateau, des cintres, un accès supérieur ou des passe-câbles. De plus, il est également possible d'ajouter un "toit" insonorisant ou une jardinière. La collection est complétée par des armoires latérales avec ou sans supports CPU et un meuble à placer au sommet des compositions, avec ou sans structure jardinière.
